

Attestation

D'ECO' BRILLANTE

supplied by

Sestriere vernici srl

The sample of a water-based paint was supplied to Eurofins Product Testing A/S the 28th of January 2025. The sample was tested as being representative of the manufactured product and it has been tested according to ISO 16000-3, ISO 16000-6, ISO 16000-9, and ISO 16000-11 testing standards (see test report no. 392-2025-00041202_E_FR).

In accordance with legislative requirements, the test results can be summarized as follows:

*Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

The product was assigned a VOC emission class without taking into account the measurement uncertainty associated with the result. As specified in French Decree no. 2011-321 of March 23, 2011, correct assignment of the VOC emission class is the sole responsibility of the party responsible for distribution of the product in the French market.
